John McGowan/Steve Dowdy
3. NIH eRA Commons V 2.0 — Tim Twomey
  - Status of development/deployment
  - Plans for future releases
    - eSNAP
    - X-Train
    - Other new functionality
  - Outreach/Training
4. Internet-Assisted Review — Dan Hall

# Agenda for CWG Meeting

## January 8, 2003

---

5. CGAP Data stream Approach and Models –  
JJ Maurer
  6. Update on the SBIR eRA Initiative
  7. Progress on Streamlining the Competitive Grant Application Process – David Wright, George Stone
  8. Other Issues
    - NIH eRA Commons Implementation Planning at CWG Institutions
-

# Clinical Research/IRB Process

---

- Several Schools trying to define data standards for sharing protocol information
  - They want NIH and FDA to work with them
  - We agreed that all of us need to have input
  - They want JJ to select an NIH point person
-

# Commons II Deployment Schedule

---

- Version 2.0.0.0 - 10/11/2002
  - Version 2.1.0.0 - 11/01/2002
  - Version 2.2.0.0 - 12/06/2002
  - Version 2.2.1.0 - 01/10/2003
  - Version 2.2.2.0 - 03/24/2003
  - Version 2.3.0.0 - 07/12/2003
-

# IAR

---

- Not much interest, out of purview
  - Some did want to learn for support purposes
  - Concerns
    - Creation of multiple profiles
    - Ease of after-the-fact affiliation
-

# CGAP Model/SBIR Update

---

- JJ Maurer presented “Ticket” system
  - Concept was well received (CWG & FDP)
  - Careful to say that it is not blessed by E-Grants
  - CWG liked CGAP timeline
  - Need to publish all work given to SBIR awardees
-

# CGAP Streamlining Effort

---

- CWG Action Items
    - Why are fields needed and how are they used?
    - Formatting issues (ASCII vs. Rich Text)
    - Timing and vehicle of data submission
  - Reviewer Meeting
-
